
Fee Schedule Transparency

Marianjoy is committed to working with our patients and their insurance provider on providing estimates of potential “out of pocket” costs before any treatment is begun. Since every insurance company and treatment regimen varies, we also ask our patients to partner with us by reaching out to their insurance provider on potential “out of pocket costs.” One resource that is beneficial in explaining all of the aspects of a hospital bill is on the Healthcare Financial Management’s website [Understanding Healthcare Prices: A Consumer Guide](#) (requires adobe acrobat.)

If you still have questions about our fee schedules or would like copies, please do not hesitate to contact any of our patient financial service departments at:
